... TRANSFORM YOUR SPACE

Hospazio can be adapted to various functions, using different shapes and materials. The basic concept consists of one piece of furniture containing a removable table and/or stools, creating a range of variations. This furniture can be used in small spaces as single units or in larger homes as multiples to create more complex arrangements:

one idea, infinite possibilities

flexible design principle
compact space
dining room area
library
repeating elements
sitting room area
create your space
study area
room divider
bookcase

100% MADE IN ITALY : the work of craftsmen
SUSTAINABLE / ENVIRONMENTALLY FRIENDLY
Water-based varnish
Poplar } from renewable sources
Walnut }

As part of its Mission Statement, the Letea company for more than 35 years has brought together the values of technological innovation with those of the skill of the craftsman. This has enabled them to transform various aesthetic ideas, paying great attention to detail. Each Letea product is made to the highest specifications, providing outstanding performance over time, safety and flexibility of use.

The industrial processes involved are eco-friendly and sustainable, a principle of Letea's company strategy and commercial philosophy.

GABRIELE ADAMO
Architect

SIMONA PERROTTA
Architect

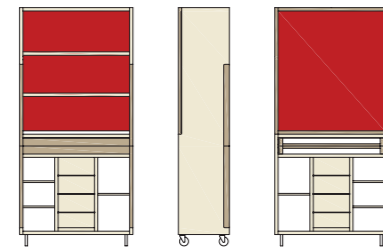

Natives of Palermo, Italy, Gabriele Adamo and Simona Perrotta graduated from the Faculty of Architecture in 2001 and 2002 respectively and married in 2011.

Working separately, together and with other architects, they have acquired considerable experience in the fields of town planning, restoration, interior and furniture design.

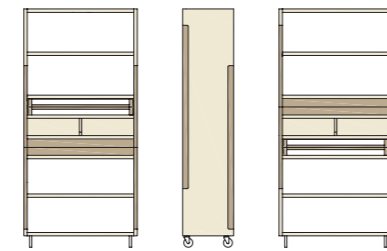

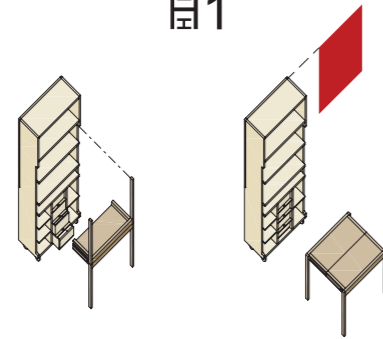

Gabriele and Simona have enhanced their professional competence running collaborative projects with students, working as teaching assistants on the Architectural Design courses run by the Faculty of Architecture at the University of Palermo.

Gabriele and Simona share their passion for architecture, design and anything requiring creativity and flair.
